Advanced Practice Providers

Compassion for IBS-C Project

This grant opportunity has been developed for advanced practice providers and aims to raise awareness about irritable bowel syndrome with constipation (IBS-C) diagnosis and management among patients and healthcare providers in the community.

Application Approval Process and Criteria

- a. **Project Purpose:** To disseminate awareness and educational resources on IBS-C within the community, targeting both patients and healthcare providers. The aim is to create a program that can be easily adapted and applied to a broad population.
- b. **Project Deliverables:** High-level outcomes aimed at enhancing comprehension of IBS-C, thereby expanding access to care and providing resources for managing IBS-C effectively.
- c. **Project Budget:** Create a reasonable budget of up to \$5,000, which will be allocated for maximum impact. Approved grants will require line-item budgets and receipt verification.

Examples of Potential Projects

We encourage your creativity by developing new ideas for projects.

Here are a few ideas:

- i. Hosting education sessions or lectures on IBS-C, covering aspects such as the disease state, management strategies, and dietary/lifestyle modifications
- ii. Creating patient education handouts or pamphlets focused on IBS-C and disseminating them within community healthcare settings
