GHAPP ACE App Peer Network Guide

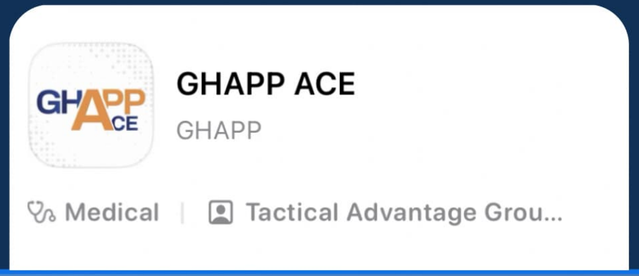

Connect. Learn. Grow — with your fellow GI & Hepatology APPs.

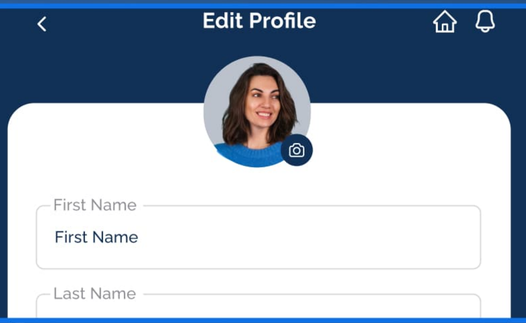

GHAPP Gastroenterology & Hepatology Advanced Practice Providers

Get Started in 4 Easy Steps

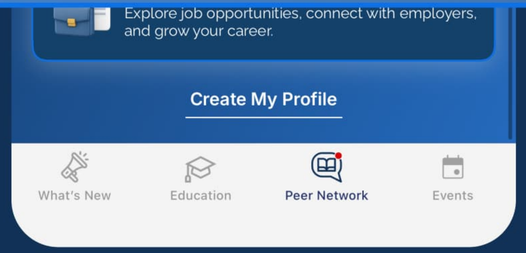

1. Download or Update the App

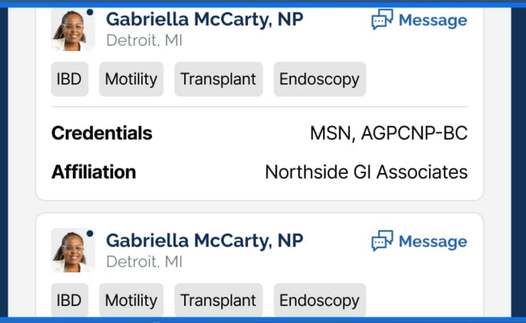

2. Create your profile

3. Sign up for the Peer Network

4. Start connecting

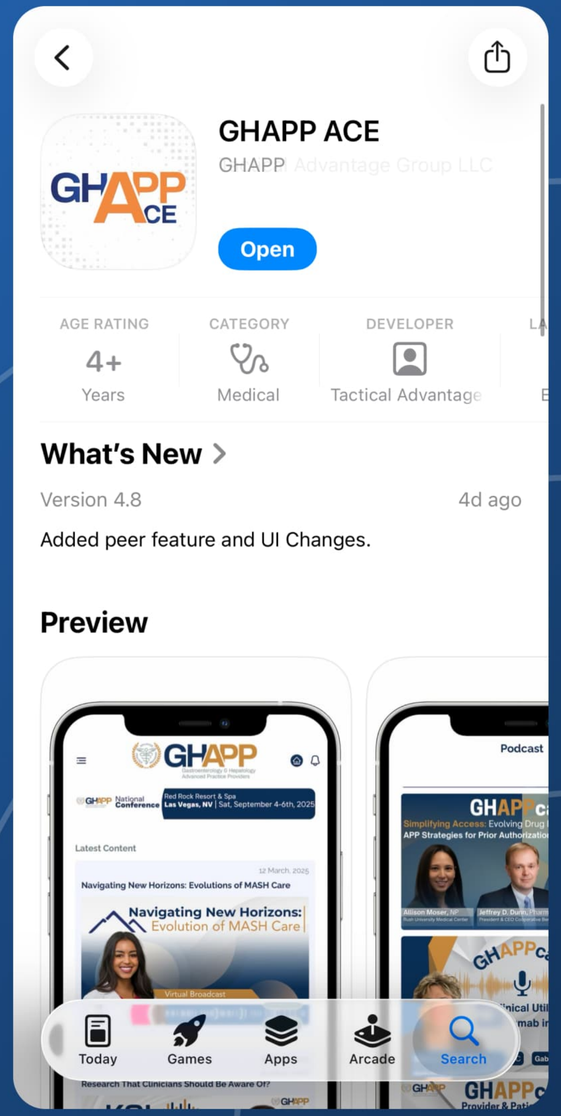

GHAPP Gastroenterology & Hepatology Advanced Practice Providers

Step 1: Download or Update the GHAPP ACE App

Search "GHAPP ACE" in the App Store or Google Play.
Tap Get/Install/Update, then Open.

Tip: Confirm it's the official GHAPP-published app before installing

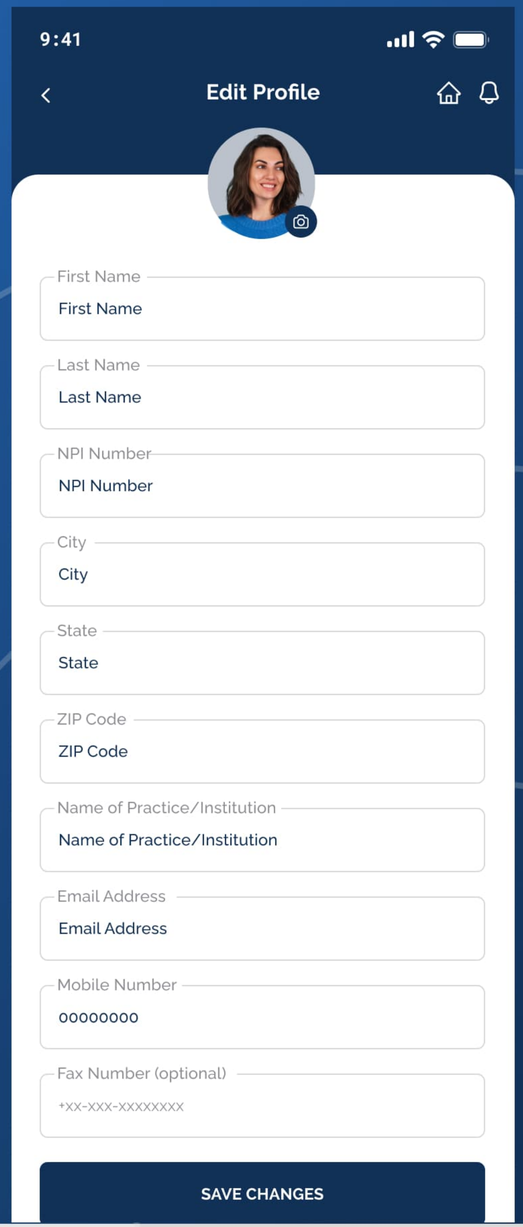

GHAPP Gastroenterology & Hepatology Advanced Practice Providers

Step 2: Create Your Profile

Open the app and tap Register Now. Enter your name, NPI number, practice details, email, and password, then agree to the Terms and tap Register.

Step-Up To GI Grads: Register with the same name and email used in the Step-Up To GI program so your records match.

Step 3: Sign Up for the Peer Network

Tap the Peer Network tab, then Create My Profile. Add your credentials, clinical focus, and a short bio, then submit for review. Approval usually takes a few days, you'll receive a notification once you're live in the directory.

Step 4: Your Peer Network Home Base

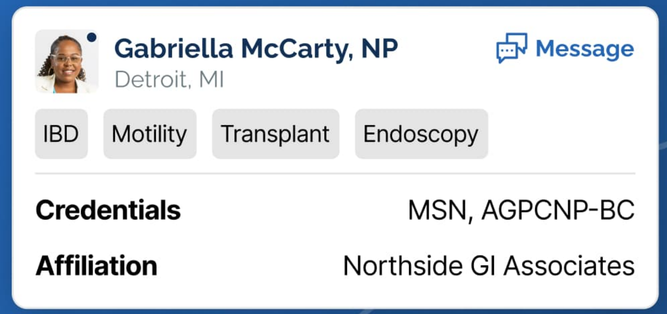

Once approved, this screen is your starting point every time. Four module cards — Find a Peer, Post a Question, Resources, Career Opportunities — plus a ticker up top showing what peers are discussing right now.

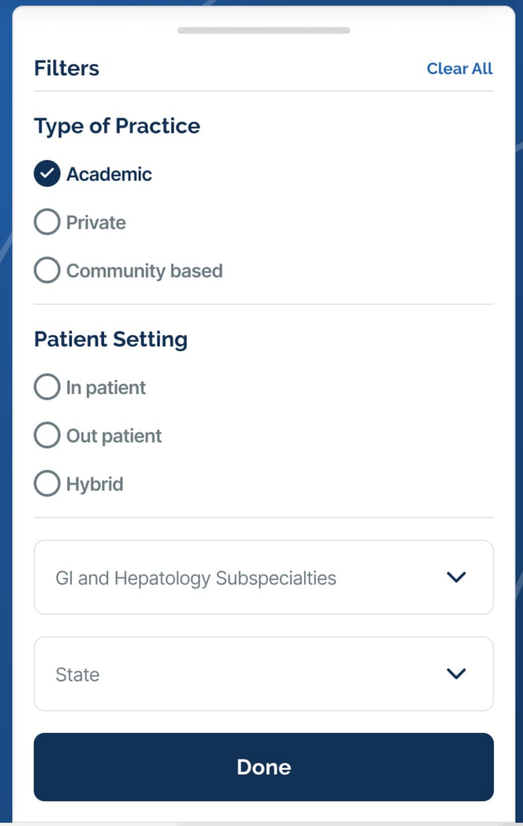

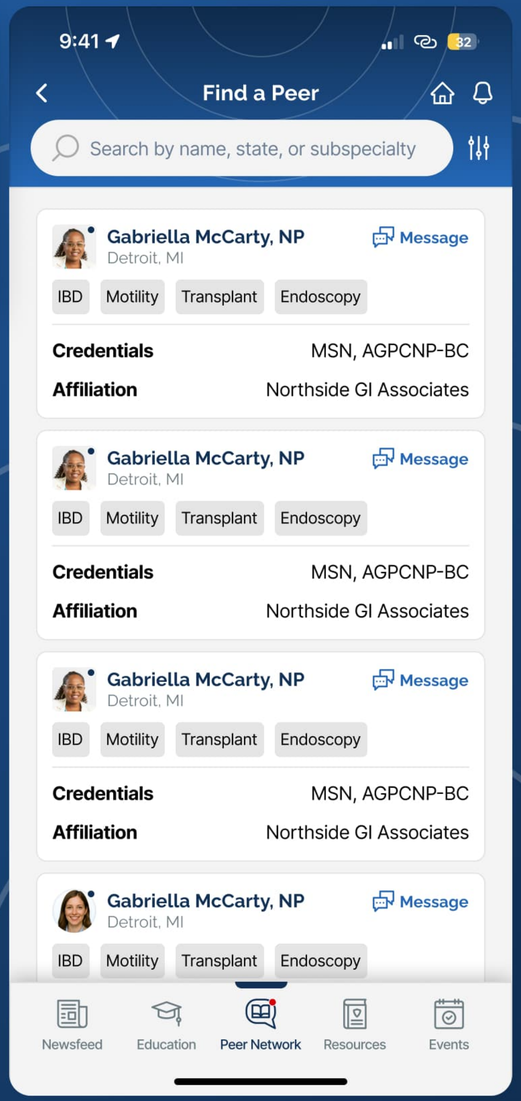

GHAPP Gastroenterology & Hepatology Advanced Practice Providers

Find a Peer

Browse the member directory by name, state, or clinical focus. Use the filter icon to narrow by practice setting or years in practice. Tap a card to view a full profile, or the message icon to start a direct conversation.

Post a Question

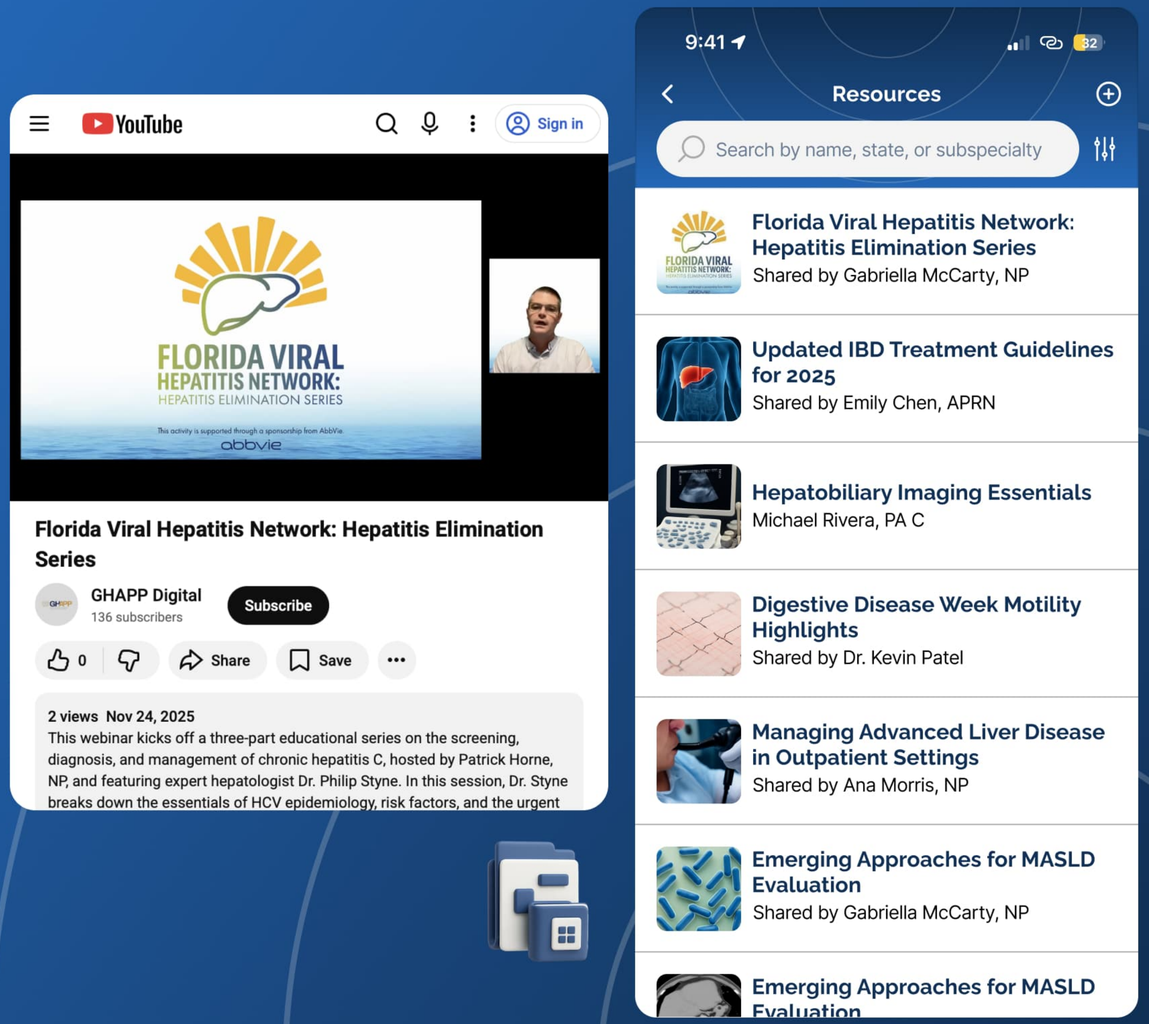

Tap the + icon in the Question's Feed, write a clear question, and tag the clinical focus (or specific peers) best suited to help. Reply to others' questions the same way — your input helps build the community.

GHAPP Gastroenterology & Hepatology Advanced Practice Providers

Resources

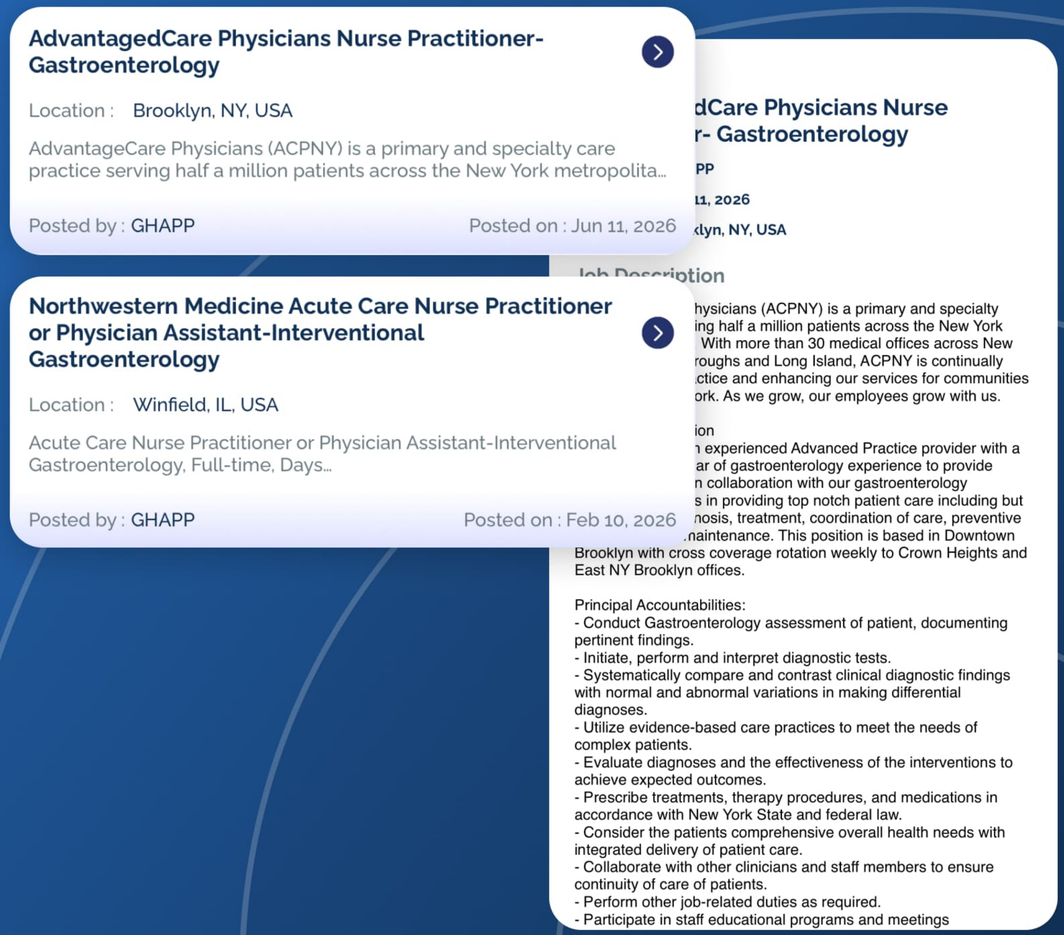

Explore articles, videos, and practice tools — all reviewed and published by the GHAPP administrator, so everything is vetted. Search or filter by category, then download or open a resource with one tap.

Career Opportunities

Browse GI and hepatology job listings from across the country, or tap Post Opportunity to share an opening from your own practice. Each listing shows the role, location, and how to apply.

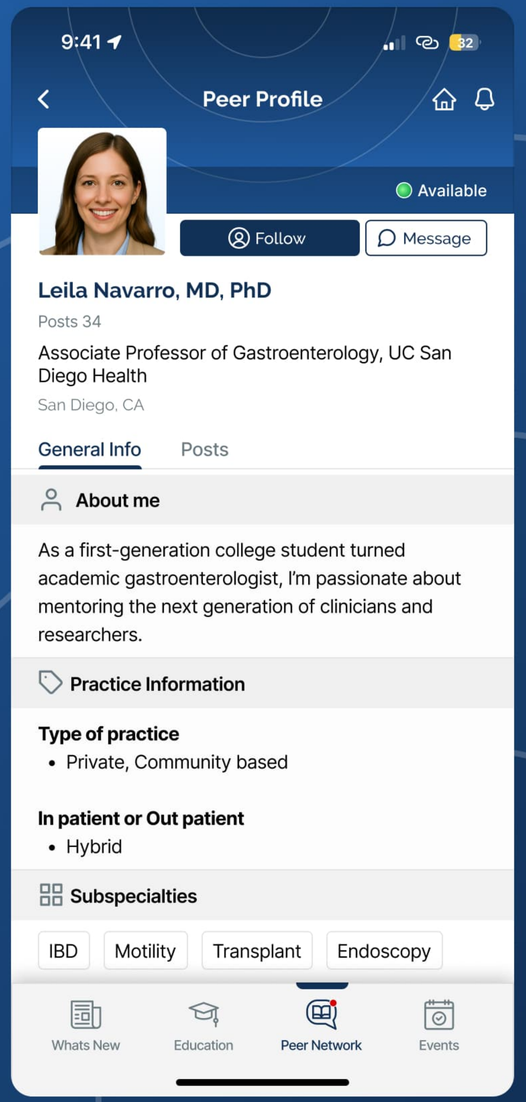

Profile Review & Approval

Every peer profile is reviewed before it goes live.

Once submitted, if approved, you're visible in the directory. If you are declined, you will be notified to edit and resubmit.

Either way you'll be notified so there's nothing to track manually.

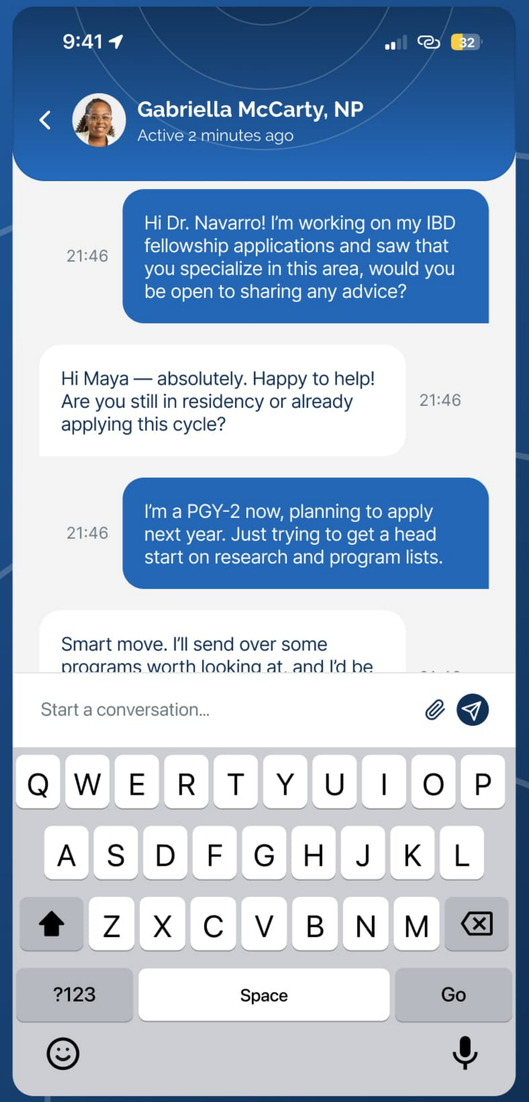

Community Guidelines

- Never post protected health information or any patient-identifying details.
- Content shared by peers reflects individual practice experience and is not official GHAPP clinical guidance.
- Keep discussions professional, respectful, and focused on advancing APP practice.
- Peer profiles are reviewed by the GHAPP administrator before publication; declined profiles may be corrected and resubmitted.
- Resources are published by the GHAPP administrator only.
